Contact: Caitlin Fahey Crow, 858-232-4922

lasirena9@gmail.com

Music Mind Games

- makes reading music easier
- makes theory easy to understand
- uses a nurturing teaching philosophy
- includes sequential learning steps
- contains mind stimulating games for learning intervals, notes, rhythm math, reading rhythms, dictation, tempos, scales, key signatures, triads, chords, music symbols, solfege, and sight-singing

"I love the "quiet skills" that Music Mind Games teaches. There are character qualities needed to develop life skills, e.g. assertiveness, faith, gentleness, goodness, honesty, joy, kindness, love, patience, place, self control, self-esteem and understanding that I endeavor to promote in my teaching."

Marthé M.

Used in private lessons, homes, music studios and classrooms around the world
