

This five-day workshop includes 30 teacher training hours and instruction on more than 110 games. Games are from the First Steps curriculum with a few games from Second Steps.

Teachers will come away with practical note reading and theory resources to use in their studios.

Music Mind Games is a flexible note reading and theory curriculum. Students progress individually and have different goals and needs so teachers may follow their own time lines as they use Music Mind Games materials to enhance students understanding in a positive and vibrant way. The materials are for beginning, intermediate and advanced students and can be used both with individuals and groups.

*For more information about Music Mind Games, go to:

Kristen Tourville received her Master's degree in violin performance and Suzuki pedagogy at Northern Arizona University. She has received long-term training in Suzuki Books 1-10 in addition to numerous invaluable teaching and learning opportunities.

She has also completed training workshops with Michiko Yurko for Music Mind Games, a revolutionary music theory teaching method. She is a member of ASTA, Suzuki Association of the Americas, and the Arizona Suzuki Association. She teaches Violin, Viola, Fiddle, Music Mind Games.

Kristen got her undergraduate in performance from Vanderbilt University in Nashville, TN and studied with Dr. Carolyn Huebl. Prior to that she studied with Dr. William Magers and Dr. Katie McLin, among others. While in Nashville she played professionally with Ray Price and shared the stage with legends like Merle Haggard, Willie Nelson, Asleep at the Wheel, and Alison Krauss.

Space is limited to 20 teachers so register early!
